## Engenion sets standards: 4 awards in 4 months across 10 categories

Global recognition for the PPM software for the world's most complex development projects

Stuttgart/Istanbul, 15 October, 2024 – Engenion, GFT's innovative Project Portfolio Management (PPM) software, has won the prestigious Stevie Award. An international jury awarded Engenion: **Gold** in the categories "Achievement in Product Innovation" and "Project Management Solution." Additionally, Engenion received a **Bronze** award in the "Best Business Technology Pivot" category. With these recognitions, the GFT product has become the most awarded PPM software of 2024.

In the past four months, Engenion has also won:

- The **Globee® Business Award** in the categories "Most Innovative IT Software" and "Project and Portfolio Management."
- The **Best in SaaS Award** in the categories "Most Innovative Product" and "Best New Product."
- The **Cloud Awards** as "Best SaaS Product" in the category "Project Management, Workflow Automation, or PLM."

Beyond technological leadership, Engenion impressed the jury with its significant value for clients. One jury member noted in their final evaluation, "Engenion is showcasing significant customer savings and rapid adoption within the automotive industry."

"The global recognition and the trust our customers place in our product Engenion, are results of hard work and exceptional innovation," said Marco Santos, CEO of GFT Technologies SE.

### Success in the German Automotive Industry

Engenion has proven itself in the German automotive industry, currently managing hundreds of development projects in parallel, with thousands of users and a total development budget in the billions of euros. Its product-centric approach has helped clients identify and eliminate wasteful processes.

"Engenion is already helping some of the world's leading premium auto makers boost transparency and efficiency of their development processes," said Jens-Thorsten Rauer, Group Chief Executive for Central & Western Europe at GFT Technologies SE. Rauer added, "Our clients are saving hundreds of millions of Euros every year thanks to Engenion."

### Engenion: The PPM Solution for the Most Complex Development Projects

Engenion is an AI-powered PPM software developed by GFT Technologies SE specifically for the world's most complex development projects. With its unique Object-Activity-Value (OAV) logic and product-centric approach, Engenion integrates comprehensive product development data with modern project management capabilities. A state-of-the-art resource management empowers teams to

manage project resources more efficiently and boosts productivity. This combination enables precise cost tracking and product breakdown, ensuring that projects are completed on time, within budget, and aligned with objectives.

### AI-Driven Forecasts for Better Decision-Making

Through AI-powered forecast reports, Engenion delivers precise budget and resource predictions, enabling customers to foresee challenges and make data-driven decisions with confidence. Intelligent staffing recommendations and automated skill management ensure that the right talent is matched with the right tasks at the right time.

### Easy to implement

Engenion integrates seamlessly into existing IT infrastructures, reliably connecting to systems such as controlling and HR tools, internal cost centers, and development data from JIRA. This versatility and efficiency make Engenion the preferred solution for companies looking to manage their development projects more effectively and cost-efficiently.

Engenion is part of the GFT [AI.DA Marketplace](#), a platform that combines predictive and generative AI technologies and data analytics. The GFT AI.DA Marketplace promotes the development and introduction of AI applications by providing a comprehensive collection of use cases, methods, reference architectures and preconfigured solutions. This helps to significantly **accelerate** the **digital transformation**.

*Kathrin Günther, COO of GFT's product business, and Jens-Thorsten Rauer, Group Chief Executive for Central and Western Europe, accepted the Stevie Awards for Engenion in Istanbul.*
